KSC ENVIRONMENTAL CHECKLIST REVISED: The KSC Environmental Checklist, KSC Form 21-608, has been revised. The new form is the result of collaboration between NASA and the Air Force and is a joint document that will be used by both agencies to accomplish initial environmental reviews of proposed projects and activities. The use of a joint form will speed processing and ensure uniform reviews regardless of a project's location (e.g. KSC or CCAFS). A KSC Checklist should be completed and processed for all new activities and projects as required by the National Environmental Policy Act (NEPA) and 14 CFR Part 1216.306(D)(7) and (8). The completed checklist should be forwarded to TA-C3 for review and processing. A Record of Evaluation Consideration (REC) will be prepared and returned to the signatory that details the environmental requirements that apply to the proposed activity or project. Detailed instructions and other related information can be found on the Environmental Program Offices' web site along with the downloadable form at <http://environmental/Nepa/checklist.htm>. (TA-C3)
